

the new standard  
in server technology

# Model EGS

## General

Model EGS is a combination of processing power and storage volume. Up to two powerful Intel Xeon processors can be used in the compact 2U chassis, combined with a maximum of 36 TB hot swappable storage. This makes ECOserver model EGS extremely well suited as a central storage server for large IP security projects and also excellent for use in data center environments.

## Specific properties

The powerful 760 watt redundant power supply provides ample power at maximum efficiency. Options for ECOserver model EGS include a Slim line DVD at the rear and 2x 2.5-inch SSD internal drives for dual OS when needed. The high-performance motherboard from Intel and up to 96 GB of memory creates a true powerhouse. ECOserver model EGS can be provided with various RAID storage solutions. At the back there is room for three expansion cards via a riser card supplied as standard. ECOserver model EGS uses energy-efficient processors, fans and power supply make very powerful server with optimal power performance.

## Target group

Model EGS is ideal for numerous applications such as:

- high-end security solutions;
- high-end storage server;
- virtualisation;
- dedicated server.

# Model EGS

## Technical properties

All systems will be configured based on **requirements of the application**. We provide systems without software or with Microsoft® software of your choice.

### Casing

■ <b>Type</b>	■ 19 inch Rackmount, 2U high, inclusive Rackmountkit
■ <b>Dimensions HxWxD</b>	■ 8,7 x 43,8 x 78,1 cm
■ <b>Weight</b>	■ Approximately 15 kg
■ <b>Internal storage</b>	■ 12x 3,5 inch hotswappable HDDs, 2x 2,5 inch internal HDDs and Slimline DVD
■ <b>USB ports</b>	■ 4 x USB 2.0 at the back
■ <b>Expansionlots</b>	■ 1x Full height riser card 2x PCI-E 2.0 x8 and 1x PCI-E 2.0 x16
■ <b>Cooling</b>	■ 4 x 80 mm fan
■ <b>Colour</b>	■ Black
■ <b>Power supply</b>	■ Redundant hotswappable 760 Watt power supply
■ <b>Noise level</b>	■ Approximately 60 dB
